

REMARKS

By this amendment, claims 5, 6, 12, and 13 have been amended. The Examiner has indicated that claims 1 - 18 are allowed but objected to claims 5, 6, 12, and 13. **The claims remaining in consideration are claims 1 - 18. The independent claims remaining in consideration are claims 1, 11, 15, and 17.** No new matter has been added by this amendment.

I. Drawings Objections

The Examiner has objected to the drawings as being unofficial and for failure to utilize reference numeral 44, in reference to the lens, in Figs. 3A and 3B. Applicant submits herewith corrected formal drawings. Therefore, Applicant respectfully requests reconsideration of this objection.

II. Claim Objections

The Examiner has objected to claims 5, 6, 12, and 13 based on the observed informality in using "the ratio" rather than "a ratio". Applicant has amended claims 5, 6, 12, and 13 to address this informality. Therefore, Applicant respectfully requests reconsideration of this objection.

III. Conclusion

All of the stated grounds of objection have been properly accommodated by this amendment and response. Applicant therefore respectfully requests that the Examiner reconsider all presently outstanding objections and that they be withdrawn. It is believed that a full and complete response has been made to the outstanding Office Action, and as such, the present application is in condition for allowance. If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, he is invited to telephone the undersigned at the number provided.

Prompt and favorable consideration of this Amendment and Response is respectfully requested.

Respectfully submitted,
